"Orinda Kids"- OK Camp

Ages 3.5-Completing Kindergarten

Join the fun at the Orinda Community Center when our camp leaders create a camp environment for the enjoyment of your children. The goal of OK Camp is to provide an atmosphere of enjoyable learning experiences. Daily activities may include sports, crafts, dance, games, music, reading-time, and hiking (exploring). Special trips and guest presenters. Take a walk to the fire station, hear a presentation and see the wildlife, dance to music, and ride a bike during traffic safety town! Many fun and educational activities. Counselors are assigned to a specific group of children for each session. Camp is specifically designed for pre-school and kindergarten age children. Enroll early.

Mon.-Fri. 9:30a-12p

Location: Orinda Community Center

Optional extended care (OK Corral) from 8:30-9:30a & 12-1:30p

OK Corral-Extended Camp

Join the OK Corral campers for an extended day. Campers are supervised for lunch and fun times. Campers are asked to bring lunch and a drink. Pick-up by 1:30pm. You must be registered for the OK Camp session to register for OK Corral Extended Camp.

Build a PC | PC Hardware Engineering

Ages 10-17 (Advanced Level) VisionTech Staff

This program is a must for someone who loves electronics or is curious about computers. Participants build a personal computer or media center from parts. Learn about the personal computer’s components, the CPU, mother board, memory chip, hard disk, video card and all the other parts. Students prepare the visually appealing case and motherboard as well as install the CPU, Ram, motherboard, drives, and adapter card inside the case. At the end of the camp students hook up the cables and peripherals and test the computer of their own making. Students can change components as they see fit to either increase the power or reduce the price of the computer. Component deviate significantly from market price for those components.

Introduction to Java

Ages 13-18

VisionTech Staff

In this Introduction to Java course, learn the fundamentals of Java programming. Students are introduced to concepts such as variables, constants, classes, arrays, and more. The goal of this class is to build fundamental concepts of programming, and to learn how to "think like a programmer." Campers learn how their code interacts with the computer, how it is compiled, how to JAR their project, and how to distribute their programs over the internet using Java Web Start. At the end of this course, students take home their programs, and are given the tools in order to continue their programming experience on their own.

Kindergym

Parent (Adult)/Child Class (Child Ages 1-3)

Much of a child's early learning comes through physical activity. Our Kindergym program offers range-of-movement exploration activities where a child can climb, hang, jump, balance and bounce. In this healthy environment, the parent offers positive, encouraging, and helpful feedback. A skilled staff member is always on hand to assist. The equipment is rearranged each week to provide a new challenge.

Parents are required to have infants in packs. Siblings are only allowed in class if registered. Child must be walking. Use make-up book in the Kindergym for missed classes due to illness or cancellation of a class. Prior to participation, a Hold Harmless form and information sheet must be completed.

Orinda Musical Theater & Orinda Little Theater
Co-Sponsored by Kids'N Dance

Children of all abilities are proud to be a part of our polished mini-productions of musicals that are fun, challenging, and engaging. Cast members learn to develop character, vocal technique, presentation, and dance skills. The Orinda Little Theater (4-8 year olds) sing, dance, and perform a short play. The 6-10 year old casts present plays lasting about forty minutes with about 4-6 songs and the cast for 8-14 year olds present plays lasting about 1-1/2 hours with 10-12 songs. Participants are expected to independently study their lines, songs, and blocking (as scheduled) and to attend all rehearsals. In addition, parents support the quality of our productions by committing a required six hours of time (for a \$60 fee you may opt out of doing the work and Kids'N Dance will hire someone to take your place). Most costumes are supplied, but parents are required to provide the basics. Please have child prepare a song for the first day of class (except for Orinda Little Theater). Children do not have to know how to read for the Orinda Little Theater shows. Please read refund policy carefully, but absolutely no refunds or credits are issued once this program begins. Additional charge for show tickets. Show times are subject to change.

Kids on Camera TV | Film Acting School

“A playful and educational program where every child shines.”

Award winning Kids on Camera TV/Film Acting School offers an acting and audition training that helps youngsters to improve their audition and communication skills for stage and screen. Students build social skills, expand their creativity, and improve school presentations in a non-competitive environment. VIDEO FEEDBACK is used as a tool to evaluate their skills and make learning fun. Coaches: Founder/Director, Judy Berlin and Staff

Physical Comedy, Improv & Scripts

Ages 4-7

Get ready for fun as students learn performance and audition skills for on-camera. Expand your expressive range as you interact with a puppet in a script and also learn comedic timing in a physical comedy routine. Develop teamwork and listening skills, improve speech habits, coordination, and learn to take cues. Parents are invited for a camp review the last day.

Engineering & Construction with Erector® Sets

Ages 5-12

AWESOME Engineering Staff

Are you ready to have an AWESOME time? Learn about engineering and construction concepts using Erector® educational toys. Build things you encounter everyday; including bridges, cars, skyscrapers and more! Some of the concepts covered include: Torque vs. Speed, Belt and Pulley Systems, Gravity, Friction, and Truss Systems. You are provided with everything you need to build each project which includes a tool belt, tools and project pieces. This hands-on class allows you to work together to solve problems while building projects. Returning students work on new projects.

Electronics Engineering with Snap Circuits®

Ages 8-12

Reena Molhotra

Learn the basics of electronics engineering by following the “learn by doing” approach. Children use “electronic” snap on building blocks from Snap Circuit® kits to build different models like radios, flash lights, alarms, and much more! Each class focuses on different concepts of electronics and children are encouraged to experiment with their own designs. The circuits run with only batteries and electricity is never used. Reena Molhotra is an experienced computer engineer and an ASEP class instructor.

Playwell TEKologies | LEGO® Camps

Teaching Engineering to Kids

Take a “crash course” in Demolition Derby, design a Mighty Metropolis, enter the Sumo Wrestling Competition, build and race a Locomotive faster than a speeding Worm Drive. Children are given instruction, design challenges, and competitions appropriate to their facility with LEGO® Technic and System components. This is an opportunity to build that great LEGO® project with guidance and assistance from our qualified staff. These are fun, challenging, hands-on, and minds-on camps suitable for LEGO® novices to “maniacs.” These camps are not affiliated with the LEGO® Group.

Pre-Engineering with LEGO®

Ages 5-7

Create, Play, and Learn. Build a town, city, or star base with houses, buildings, pyramids, bridges, tunnels, towers, and more. Build motorized cars, trains, buses, and trucks; race them; crash them; repair them. Explore the many possibilities of LEGO® building systems while learning useful construction techniques.

My First Lab

Ages 3-5.5

Become a junior Mad Scientist! This camp is a great introduction to science. Preschoolers explore their sense of sight, sound, smell, taste and touch. Children use a magnifying glass to discover the world of creepy crawly creatures. Explore the science of the sea and the fascinating creatures that live there. Campers become paleontologist by searching for fossils and participating in a mini-dinosaur dig. Finally, take an exciting mission with Mad Science to explore the planets, moons and stars. Take-home projects included each day.

World Scientists

Ages 6-10

Spend time in the lab learning the tools and techniques many of the great scientists use. Our World Scientists conduct solar experiments, explore predator and prey relationships, and investigate food webs. Come learn about the ocean and what an odontocete is, discover systems in nature, even make your own paper. Learn animal adaptations and create an insect habitat. Scientists also discover what Mr. Owl had on his dinner plate during the famous owl pellet dissection. Many great hands-on projects included in this scientific week.

OYA Parent Volunteers

We invite you to be a part of this experience by supporting children and teams. Watch them develop sportsmanship, improve their skills, make new friends and have a lot of fun. We need and require your participation as a coach, assistant coach, division head, or as an enthusiastic supporter.

OYA Information

E-mail: jjohnston@cityoforinda.org or our website at www.cityoforinda.org. Call (925)253-4204.

Orinda Teen Advisory Council (OTAC)

Join the Teen Advisory Council (grades 7-12) if you are interested in providing input and developing programs, events, and community service projects with other teens in the community. Call (925)253-4206 or (925)254-2445 for information.
